

# Arbejdsark til at spore Siksak linjer

Spør hver prikkede Siksak linje fra grøn til rød prik.

A large area for tracing practice. It contains seven rows of dotted zigzag lines. Each row starts with a large green dot on the left and ends with a large red dot on the right. The lines are made of small dots. There are also several smaller green and red dots scattered around the rows, some at the top and some at the bottom, likely for additional tracing or identification exercises.
